 HÄSSLEHOLM MILJÖ AB VI BRINER FÖR EN HÅLLBAR FRAMTID	Document name		
	Appendix F: Specific requirements for Water Purification Plant		
Issued by The safety committee	Approved by/manager Sven Carlsson	Date 2020-12-01	Edition 01

Appendix F Specific requirements for Water Purification Plant

General

- First aid equipment is located in the dosing room at Hässleholm Water Purification Plant.
- At study visits, the supervisor will provide vest
- All photographing and filming is prohibited!
- Smoking is permitted only at unpaid breaks and outside fenced area.
- Signs, guardrails and obstructions shall be observed and followed.
- Some chemical handling occurs.

Personal protective equipment

- Safety shoes shall always be used during work. Exceptions are made for:
 - Shorter visits at working site
- Safety helmet shall be used during plumbing work, blasting work, crane work and work performed at level differences.
- Safety goggles shall be used during:
 - Cutting work
 - Usage, preparation and handling of chemicals that pose a risk for the eyes
 - Vegetation clearing
- Visitors/contractors shall follow given instructions regarding usage of personal protective equipment

Specific areas

- So-called hot works occur at the facility. This requires permission and only permit managers can issue these.
